

BlueJeans Rooms-as-a-Service Featuring Dolby Voice Room

BlueJeans rooms featuring Dolby is the premier converged meeting solution which combines the best features in audio and video conferencing.

Simplicity delivered in a singular package

BlueJeans Rooms' provides a one touch-join calendar integration and elegant user interface. Dolby Voice Room brings natural, immersive audio and intelligent video. Together, they redefine meeting rooms, clear clutter and deliver an amazing user experience.

As-a-Service model makes budgeting easier

The introduction of Rooms-as-a-Service (RaaS) has opened up new opportunities for partners in the video conferencing market. Equip your customers with a best-in-class solution, without the financial hurdles that come with purchasing hardware.

- **No limits.** Have the freedom to deploy as many BlueJeans Rooms as you need to meet your workplace transformation goals without cost being an issue.
- **Easy-to-Buy.** Leverage a subscription model to eliminate the hassle of making large capital expenditures. Procurement and approval process becomes easier and faster.
- **Simple to Scale.** Pro-actively manage room deployment, scaling up and down with minimum hassle.
- **All Inclusive and Predictable.** Take advantage of a fixed annual cost that includes service, warranty, hardware, support & management tools with no additional costs or hidden fees.
- **Peace of Mind, Guaranteed.** Remove the administrative overhead that typically comes with maintaining hardware, firmware and software by providing advanced hardware replacement and firmware and software updates free of charge.

Nuvias has been selected as a trusted distributor to assist with the roll out of R-a-a-S. Speak to us about how we can pre-configure your Dolby Device to work automatically with BlueJeans!
