

400HD IP Phone Series

The AudioCodes 400HD series of IP phones includes a range of easy-to-use, feature-rich products for the service provider, hosted services, enterprise IP telephony and contact centre markets. Based on the same advanced, field proven underlying technology as our other VoIP products, AudioCodes high quality IP phones enable service providers, systems integrators and end-customers to build end-to-end VoIP solutions.

Common Features of the 400HD Series

- Power over Ethernet (PoE)
- Multiple language support
- Integration with voice quality monitoring
- High-definition voice quality
- AudioCodes auto-provisioning
- Robust security mechanisms
- Power over Ethernet (PoE)
- Multiple language support
- Integration with voice quality monitoring

Unified Communications

AudioCodes provides diverse solutions tailored for the unified communications (UC) market. AudioCodes' offering for UC includes media gateways, E-SBCs, call recording solutions, mobility and IP phones which, in addition to high quality voice calls, also support presence features.

Enterprise IP Telephony

AudioCodes IP phones offer reliable, high quality communications for users of on-premises, open source and hosted IP-PBXs. Their wide range of essential business features, reliability and proven interoperability makes them the perfect choice for any SIP-based environment, from SOHO up to large enterprises.

IP Contact Centres

AudioCodes IP phones provide the perfect solution for IP contact centre agents. Combining excellent voice quality for contact centre agents, with a compact and robust enclosure design and headset integration, AudioCodes' IP phones offer

several essential features required in the growing contact centre market including fully certified VoIP interoperability with leading contact centre solution providers.
